

The equipment and product range you choose for your acrylic kit is to your choice. If you find a brand of Acrylic you like then stick to that. Brands we prefer are Glitterbels from www.salonsdirect.com and CJP from www.cjpnailsystems.com. Acrylic brushes from CJP are always consistent in their quality. The Electric file shown here is the 'Medlody Susie', you can also get a set of 'Medlody Susie' efile bits both off Amazon. On;y use 240 grit sanding bands for the efile when working on the natural nail and run your efile at a slow speed.
