

Client Consultation Form – Eyelash Extensions

Name: Phone Number:

Address:.....

Date of birth: Have you had lashes before? Yes/No If yes, any reactions? Yes/No

CONTRAINDICATIONS REQUIRING MEDICAL PERMISSION – in circumstances where medical permission cannot be obtained the treatment cannot be carried out (select if/where appropriate):

Medical oedema
Nervous/Psychotic conditions
Epilepsy
Recent facial operations affecting the area
Diabetes
Skin cancer

Slipped disc
Undiagnosed pain
When taking prescribed medication
Whiplash

CONTRAINDICATIONS THAT RESTRICT OR PREVENT TREATMENT (select if/where appropriate):

Fever
Contagious or infectious diseases
Under the influence of recreational drugs or alcohol
Diarrhoea and vomiting
Any known allergies
Eczema
Undiagnosed lumps and bumps
Localised swelling
Inflammation
Cuts
Bruises
Abrasions
Scar tissue (2 years for major operation and 6 months for a small scar)
Hormonal implants
Recent fractures (minimum 3 months)
Sinusitis
Neuralgia
Sunburn

Migraine/Headache
Hypersensitive skin
Botox/dermal fillers
(1 week following treatment)
Hyperkeratosis
Skin allergies
Trapped/pinched nerve affecting the treatment area
Inflamed nerve
Styes
Conjunctivitis
Watery eyes
Eye infection
Blepharitis
Chemotherapy
Trichotillomania
Glaucoma
Contact lenses
Must be removed prior to treatment

Do you have any other medical conditions or needs that may affect this service? Yes/No

If yes please give details:

CLIENT AFTERCARE ADVICE. HOW TO LOOK AFTER YOUR LASHES

1. Do not get new lash extensions wet or use a steam room for 24 hours after application or after fill.
- Let lashes totally set.
2. Do not rub eyes or extensions.
- This will cause breakage. If you have an itch, look in the mirror and scratch around the extensions.
 - Never full on rub or scratch your new lashes.
3. DO NOT USE AN EYELASH CURLER.
- Your lashes are already curled and an eyelash curler will not make them curl more.
 - Traditional curlers kink the extensions permanently and make them look tangled or could possibly snap your lash extensions.
4. Do not use oils, Vaseline, oily eye makeup remover or any product on lashes that contains oil.
 5. Repeated steam room visits will loosen lash bond.
 6. When drying eyes after bathing or swimming simply pat your eyes do not rub with towel.
 7. Absolutely no mascara. Only eyelash extension approved gentle mascara can be used over the clear coating sealer. Many types of mascara have chemicals that will melt the adhesive.
 8. If one of your extensions loosens from the lash and is partly off do not pull it.
- Return to your extension artist to deal with all lash issues.
 - If you start pulling or picking you may pull out your natural lash which can take between 6 and 9 months to grow back fully.
9. You can use a sealer (glue specific mascara) to protect your lashes from daily grime. However, do not wear the sealer for at least 3 days prior to a fill appointment.
 10. Synthetic lashes are stiffer than the natural Mink lashes so they may feel heavy for a day or two but synthetic Mink feel the same as natural Mink.
 11. Fills are required to maintain these great new lashes.
- Our natural lashes shed constantly, lash extensions will shed when your natural lash falls out.
 - In fact our natural lashes have only about a 40 day average life span before they shed.
 - A natural eyelash can take up to 3 months to shed but there is no way to determine what point each lash is during its life cycle. We estimate an average of 40 days as lash extensions are attached to mid growth.
 - Make your fill appointments every 2-3 weeks.
12. Detergents and harsh chemicals may build up in the base of your lashes after showering and washing face.
- This may compromise the adhesive and cause irritation to the lid area at the base of your lashes.
 - We are used to scrubbing our lashes and fully drying them with a towel. This isn't possible when extensions are applied and should be avoided. It is important that you cleanse gently in the direction of your lashes rather than scrubbing side to side.

If you have lost more than 50% of your lashes the fill will take longer than 30 minutes. If you have less than 50% of your lashes please let the receptionist know so she can schedule more time for your fill.
